

Mentoring Program

Are you interested in helping young people within your community?

The Bridge Youth Service is seeking mentors to support young people to pursue their interests and learn new things.

We are looking for mentors (21 yrs and over) who would like to offer friendship, support and encouragement to local young people.

Support can be offered in many ways: transport, hanging out, building something, going to the skate park etc, the skies the limit!

If this sounds like something you or someone in your group would be interested in contact The Bridge Youth Service 5799 1298 for more information.
